EDUCATION

B.Tech – Computer Science

College of Engineering Perumon

KTU | Expected 2028

CGPA: 9.04 / 10

TECHNICAL SKILLS

Languages

C • Python • JavaScript

Web Technologies

HTML • CSS • JavaScript

Tools & Platforms

GitHub • Git • VS Code

SOFT SKILLS

- Problem Solving
- Analytical Thinking
- Teamwork
- Communication
- Adaptability
- Quick Learning

LANGUAGES

- Malayalam
- English
- Tamil

PROJECTS

Hotel Booking System | OOP

- Developed a hotel booking system for managing reservations and customer records.
- Applied Object-Oriented Programming concepts and modular design principles.

Water Intake Predictor | Python, Scikit-learn, Streamlit

- Built a machine learning model to predict daily water intake based on user attributes.
- Developed a Streamlit application to deliver personalized hydration recommendations.

Dino Game Clone | HTML, CSS, JavaScript

- Recreated Chrome's offline Dino Runner game in a browser environment.
- Implemented jump mechanics, obstacle movement, collision detection, and game-over logic.

RELEVANT COURSEWORK

Data Structures • Database Management Systems • Discrete Mathematics • Cryptography • Probability & Statistics • Optimization Techniques

ACHIEVEMENTS

- Maintained a stellar academic record with a CGPA of 9.04 / 10.
- Completed the first two years of the B.Tech CSE program with consistent excellence.
- Delivered multiple projects spanning Machine Learning, Web Development, and OOP.

ACTIVITIES & LEARNING

- Actively exploring Machine Learning, Cybersecurity, and Software Development.
- Practicing programming and problem-solving through academic and personal projects.
- Building hands-on experience via self-driven development projects and GitHub contributions.
